

SUCCESS EXPERIENCES

FAST RECRUITMENT STUDY

Sponsor:
Global Pharmaceutical Company.

Medical area:
Diabetes mellitus.

Study purpose:
A Multicenter International , Randomized, Double-Blind Study.

Enrollment issues:
Anticipated difficulties: Study Design (number of visits) and Eligibility Criterias (drug naïve patients, high HbA1c level), study start during summer vacation.

Gregmed performance:
9 sites in 2 countries. Investigators from Gregmed's database.
All contracts with Investigators and Institutions fully executed in 10 weeks.
16 weeks recruitment.

Final outcome:
89 subjects randomized (= 31% of the required study population and 114% of agreed target),
screening stopped by the Sponsor.

Time saving:
About 7 months.

Patient retention:
Rate of drop outs in two years – 4% (group of patients recruited by Gregmed)
compared to overall study drop-outs – 21%.
